

Servizi e Seta

Servizi e Seta

The Company

Servizi e Seta is a trading company established in June 2008 by Schneider Group, Alberto Enoch and Jiaxing Huayi Silk & Spun.

The factory produces and trades yarns in 100% silk and silk blends with noble fibers, as well as 100% linen and linen yarns with natural fibers.

The Schneider Group is an important trader of noble fibers whose commercial strength and important industrial structure is present in Europe, Australia, South America and Far East.

Since 1928 it has been trading in the most precious fibers including wool, cashmere, alpaca, guanaco, vicuna and silk.

Jiaxing Huayi is a company founded in 1987 in Tongxiang, the City of Silk, leader in China in the production of 100% silk yarns and Silk blended with natural and noble fibers.

Thanks to the direct presence into the China factory, Servizi e Seta controls the quality of the raw materials and guarantees the best quality standards and a quick response to market changes to the customers.

Servizi e Seta

Servizi e Seta produces weaving and jersey yarns for clothing and furnishing, as well as yarns for flat knitting. The production in the two factories in China includes different spinning process:

Long Fibers Silk

Short Fibers Semi-worsted

Wet Spun Linen

Open-end

To offer the best quality and quick response to the market twisting, brushing, rewinding and dyeing process are made in Italy by specialized factories.

Servizi e Seta has direct offices in New York, Tokyo, Shanghai and Hong Kong and it has different agencies all over the world.

Servizi e Seta

Sustainable way

The always more strict rules, risks and costs connected to climatic changes confirm that the balance between Economy and Environment is extremely important not only to guarantee a high life quality standard to the future generations but also to maintain a high level of competitiveness of the company.

The most important aspects of Servizi e Seta sustainability are:

Social Responsibility

Our goal is the ethical balance between the production processes and the ecosystems

Economic Efficiency

When our yarns are distributed to their most valuable uses and waste is eliminated or recycled

Natural Environment

The ethical use of natural and animal fibers in the sustainable process, without cruelty or large waste to not compromise the natural environment, supporting human life and economic activities

Cultural Identity

We acknowledge the tradition of the small chinese silk farmers, protecting their culture from globalization

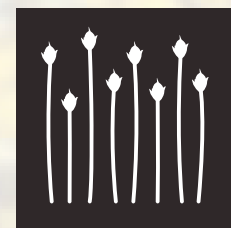

Servizi e Seta

Servizi e Seta since 2008 pays attention to sustainability with a large and continuous control of the supply-chain and with different Certification achieved.
